

# The St Mark's Pouch Masterclass

A symposium to celebrate the  
40th anniversary of the ileoanal pouch

St Mark's Hospital, Harrow, London  
Friday 29th June, 2018

## Overview:

This masterclass celebrates a milestone in pouch surgery and we have a very special day of presentations covering the past, present and future of the ileoanal pouch. Senior figures will be exploring important topics in pouch surgery to provide an understanding of:

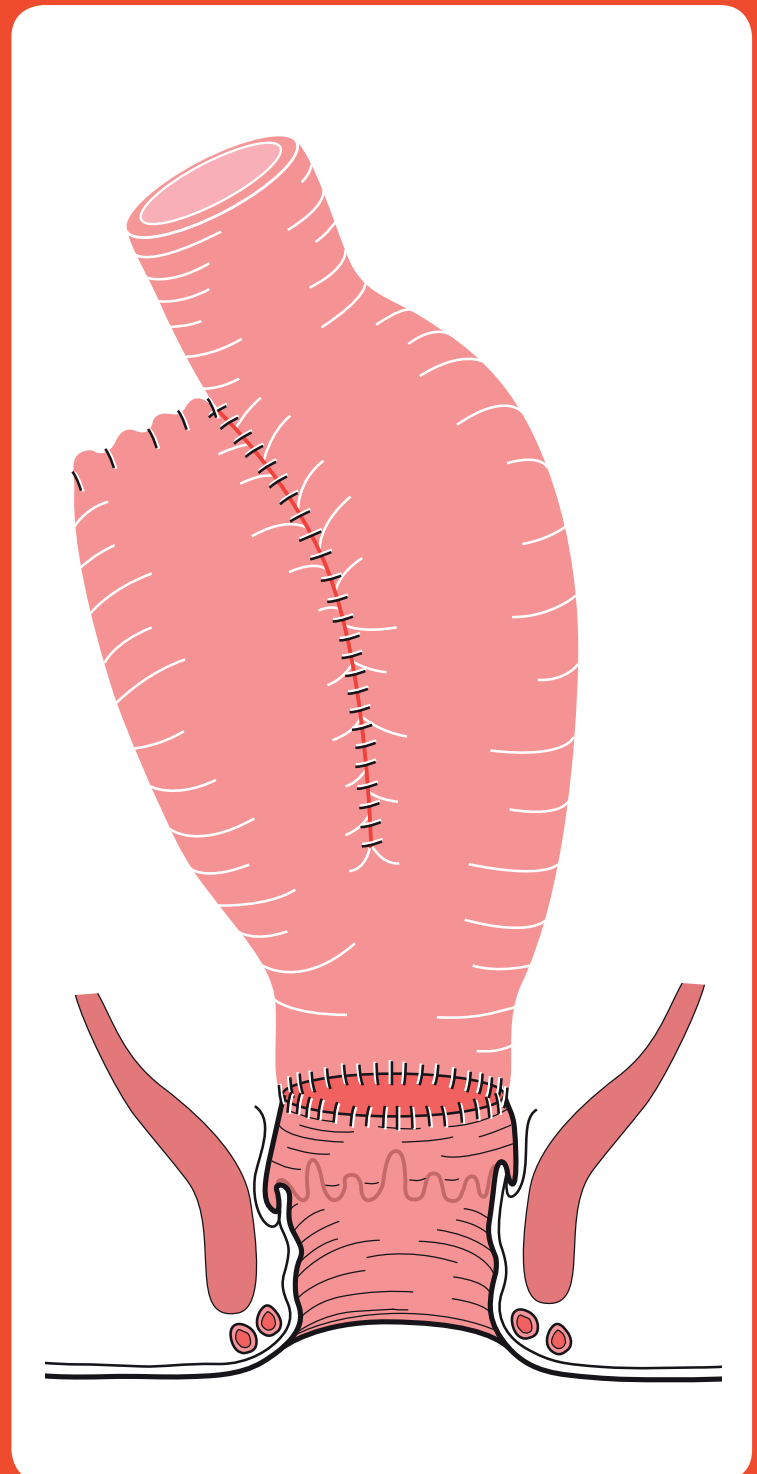

- The indications for pouch surgery, the various technical approaches and expected outcome
- The workup and management of pouch complications, including pouch failure
- Interesting and difficult cases

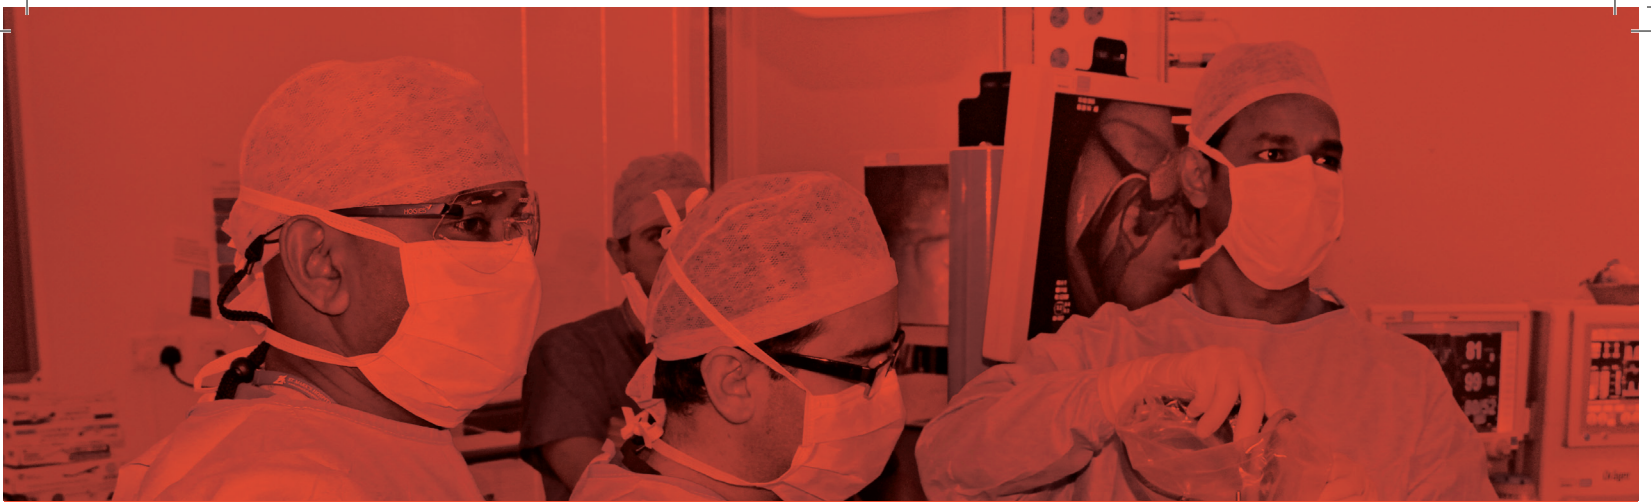

## Presentations will include:

- Lectures
- Live surgery
- Narrated footage of surgery
- Interactive case-based discussion

## Target audience:

- Colorectal and gastroenterology speciality trainees
- Consultant surgeons and gastroenterologists involved in the management of ileoanal pouches
- Stoma nurses and specialist pouch nurses

# The St Mark's Pouch Masterclass

A symposium to celebrate the 40th anniversary of the ileoanal pouch

## On the day:

We have a special presentation on the events leading up to the development of the pouch. There will be live operating featuring a TaTME proctectomy and SILS pouch formation followed by a technical section exploring minimally invasive surgery, ileoanal anastomosis and options for de-functioning.

There will be a session on living with a pouch (quality of life; sexuality and female fertility) including the role of speciality nursing followed by a session on pouch dysfunction (anastomotic leak, poor function, pouchitis and pouch excision).

A Consultants' Corner panel will discuss pertinent pouch cases in an interactive forum, and we will round off the day with a look into the future for pouch surgery with the St Mark's Clinical Director, Mr Omar Faiz.
